## ENE 5 PABELLON EUROCLIMA+ COP 25, MADRID

### Fecha y hora:

Wednesday 11 December 10.45 a 12.15

### Título *(máximo 20 palabras)*

Energy Big Push: accelerating investments in sustainable energy innovation in Brazil, in the context of ECLAC's Big Push for Sustainability approach

### Organizador(es)

Center for Strategic Studies and Management - CGEE  
Economic Commission for Latin America and the Caribbean – ECLAC  
Brazilian Energy Research Office – EPE  
International Energy Agency – IEA

### Persona de contacto

Marcelo Poppe: mpoppe@cgee.org.br

### Persona(s) a cargo de la difusión

- Camila Gramkow, camila.gramkow@cepal.org  
- Marcelo Poppe, mpoppe@cgee.org.br

### Objetivo *(máximo 50 palabras)*

The objective of this event is to present the results and lessons learned of the Energy Big Push Brazil project led by CGEE, which aims to provide data and information to decision makers to accelerate and improve investments in clean energy innovation in the country, in the context of ECLAC's Big Push for Sustainability approach.

### Presentación *(máximo 150 palabras)*

Over 10 Brazilian, regional and international institutions are working together to answer key questions to support more and better public and private investments in research, development and demonstration (RD&D) for sustainable energy solutions (SES) in Brazil. How much and what energy technologies is the country investing in? What are the performance indicators that can support decision making on SES RD&D investments? What are the incentive instruments and mechanisms that the Country has to support more innovation investments and how could they be improved? What is the Latin America and the Caribbean (LAC) context?
